

Please do not allow LPFM priority over FM translator stations. I listen daily to KLOVE radio station, which is carried by FM translator. It is a Christian radio station which provides very positive, uplifting programming (unlike the majority of other radio stations available). KLOVE provides community support with call-in phone lines staffed 24/7 by people trained in counseling skills. KLOVE encourages listeners in godliness, honesty, and serving others, all of which benefit the community-at-large. Please preserve the existence and function of FM translator stations such as KLOVE. Respectfully submitted, Cynthia Schaumberg
